“ I am thinking Jim Gelner and his partner Jack Andrews.. were my first employers at J&J Art studio at 1620 Woodland Avenue in DesMoines.. Quite a time we had in those days.. Quite an experience for a guy fresh out of art school and wanting to work as a Graphic Artist. Jim and Jack opened my eyes to much of life and gave me an in depth education in the field of Graphic Design. If this is my "Jack" I will drink a toast to his memory.. Still wonder what happened to Jack.. The photo is how the front of J&J looks today on Google maps.. the studio was the door right on the corner. past the pillar.

“ Gram, first I want to tell you that I love you very very much second that even though some days it didn't seem like it Gramps loved you too. That hooligan was always and will always be the King to my Princess and to your Queen. Endless westerns, a Coca-Cola bike, the Tower of Terror, and an expansive array of ties. These are some good memories. I love you Grandma sending you an eternal hug. I'll squeeze ya soon. Love Neenee

“ *Cheri and family,*

*We remember coming up to visit the family at Okoboji. We'd bring Jim's cinnamon vanilla nut coffee and he'd smile as he'd dunk his donuts. I don't know as he was to drink that coffee, but dunking seemed to be allowed. Hugs to you all.*
